EHTESHAMUL HAQUE

Full Stack / MERN Developer | React, Next.js, TypeScript, Node.js, Microservices

Noida, India | ehtesham000@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack (MERN) Developer with **3.5+ years** building scalable, event-driven web applications and microservices with React.js, Next.js, TypeScript, Node.js, **MongoDB** and PostgreSQL. Designed Kafka, Redis and BullMQ backends that cut system latency by **35%,** and shipped real-time, **AI-assisted** campaign platforms on AWS with Docker.

SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, Shopify Hydrogen, Redux, Zustand, Tailwind CSS, HTML/CSS, Ant Design

Backend: Node.js, Express.js, REST APIs, GraphQL, Microservices, System Design, Kafka, BullMQ, WebSocket/Socket.IO, RBAC, Generative AI content generation

Databases: MongoDB, PostgreSQL, Redis

Cloud & Tools: AWS (EC2, S3, Lambda, CloudFront), Docker, Nginx, CI/CD, Git/GitHub

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer | Somo Media, Delhi **Dec 2024 – Jul 2026**

- Architected a campaign management & analytics platform (Next.js, React.js, **TypeScript**, Redux, Node.js, MongoDB) with a 5-member engineering team.
- Designed an event-driven microservice backend with **Kafka**, Redis and BullMQ for async processing, caching and API rate limiting, **reducing latency by 35%**.
- Built a notification system using Node.js, Express.js, MongoDB, and Kafka, serving **10K+ subscribers across 150+ domains** via Firebase Cloud Messaging API and browser push notifications.
- Built a keyword planner using Next.js, Express.js, and **PostgreSQL** with Prisma, generating short- and long-tail keywords for campaign articles by region, language, and length using **GenAI**.

Full Stack Developer | Seventh Triangle Consulting, Noida **Jan 2023 – Dec 2024**

- Developed custom **Shopify** apps and Hydrogen **headless storefronts** with React.js, Node.js, MongoDB and GraphQL, integrating third-party services for e-commerce clients.
- Built secure REST and GraphQL backend services and APIs for **high-traffic** applications.
- Optimized MongoDB indexes and queries to speed up search, filtering and product allocation.
- Deployed and maintained production releases on **AWS**.

KEY PROJECTS

Nexus Campaign Management Platform (Next.js, Node.js, Kafka, BullMQ, MongoDB, AWS)

- **Engineered** a microservices-based campaign management platform with **5+ backend services** for campaign creation, approval, scheduling, monitoring, and analytics; containerized and deployed services on **AWS EC2** to support scalable production deployments.
- Implemented Kafka-based event processing and **10+ BullMQ** background workflows for asynchronous campaign processing, notifications and analytics jobs, with live updates via Socket.IO.
- Integrated **AI-assisted** content generation and **RBAC** across 4+ user roles with approval workflows, improving campaign automation and access control.

Equipp Rental Management Platform (MERN)

- Designed and implemented a **full-stack** rental platform with **10+ modules** covering customer management, products, orders, payments, deliveries, and returns.
- Integrated **third-party** APIs for KYC verification, online payments, delivery, and shipment tracking.
- Developed REST APIs, MongoDB data models, and RBAC for the complete rental order lifecycle.

EDUCATION

- **B.Tech** in Computer Science and Engineering — RGPV, Bhopal | **2018 – 2022**

CERTIFICATIONS

- Complete Web Development Bootcamp (**Udemy**) | React.Js with Firebase Database (**Udemy**)
